Enemies in Fidelity

Soilwork

As you dig another grave
You can count on my distinctive presence
We as one but still miles apartNow as I wish you would kneel before me
As I am, as I transform
Stronger than anything
Stronger than hateBuilt for war...
I accept the challenge, the triumph is near
Dismantled...
I truly am your enemyRestless believer
Of everything you hear
Of everything you see
Still I long for you, my culprit of choice
Won't leave your side
Through every second, every distant little noise
I will be yoursNeed no one to get me through
Slowly fading into fidelity
My enemy, my words are true
Let me lead your wayWe are enemies in fidelity
Nothing more but all too realWe enter the night, a promise of war
We spill our blood but ask for moreMeant to soar...
I tend to rival as you make amends
To the core...
You know we were meant to be something more
Still I long for you, my culprit of choice
Won't leave your side
Through every second, every distant little noise
It makes no difference since we're already tornNeed no one to get me through
Slowly fading into fidelity
My enemy, my words are true
Let me lead your way(Solo: Andersson)I'll roll the dice, you'll succumb
Your silent rage will make it runNeed no one to get me through
Slowly fading in fidelity
My enemy, my words are true
Let me lead your way
