

Daydream at Midnight

Lily Bee

Well, it's the midnight hour and I'm tossing in bed
I've got a half a million thoughts floating in my head,

I do
Oh, you
I'm thinking about you

The look on your face - it made me smile
Under covers in the dark I blush for a while

It's true
Oh, you I'm thinking about you

Well, I can't resist
Feeling like this
Daydream at midnight of you

[kazoo solo]

Well, I can attest
This feeling's the best
Daydream at midnight of you

I'm falling deep
Lull me to sleep
So I can start dreaming of you
