# Tell Me

## Boston

I, I stand on my own
And wonder if you've ever been alone
With all the world around you
Say the word, "I'd be there
And like a fool I'd go anywhere
Just like the day I found you"Tell me, what you see
Tell me, you believe in my love
Tell me, what you need
Tell me, you believe in my loveI don't understand what to say
You take my breath and then you walk away
Your life goes on without me
And you can look right at me
But in your eyes, it's a mystery
What do you fell about me?Tell me, what you see
Tell me, you believe in my love
Tell me, what you need
Tell me, you believe in my loveTell me, you believe
Tell me, you believe
Tell me, you believe
Tell me, you believeTell me, you believe
Tell me, you believe
Tell me, you believe
Tell me, you believeTell me, you believe
Tell me, you believe
Tell me, you believe in my loveI don't really know what to say
I don't know how but I could learn to pray
If prayin' makes you hear me
I could stay on my own
And wonder if I'd have ever known
But I just want you near meTell me, if it's real
Tell me, what you feel in my love
Tell me, what you need
Tell me, you believe in my loveTell me, what to give
Tell me, how to live with your love
Tell me, what you see
Tell me to believe in your love, in your love
