Something Good

Colin James

Here's the reason
I try to make you feel better
I'm the reason
That you ever feel bad at allAt least I'm good at something
I just wish it was something goodSomething good
Something good has got to happen
And if I wait it'll be too late
For something goodTake a picture
From when we didn't know better
Take a look
At how we looked so good togetherWhat you don't know won't hurt you
You're hurting now you know, you knowSomething good
Something good has got to happen
And if I wait it'll be too late
For something good, something goodAt least I'm good at something
Now I just wish it was something goodSomething good, something good
Something good has got to happen
And if I wait, it'll be too late
For something good, something good
Something good
