Not Good Enough

Trolle//Siebenhaar

I've been giving my heart to someone
My heart to someone
Who could not bare(?)

I've been giving my heart to someone
My heart to someone
My heart to someone

I've been giving my heart to someone
My heart to someone
Who could not bare

I've been giving my heart to someone
My heart to someone
My heart to someone

And in my room
Waiting for my man to show up
No luck at all
I know I'm wasting all my precious time
Ohhh, I was blind
Illusions brought me to where I stand now
And I always dreamt that we should leave this town
Together you and I

I felt alright (not good enough)
Wait here, I'm gone (not good enough)
Played out(?), our love (not good enough)
Memories are fine and it's time to move on

I felt alright (not good enough)
Wait here, I'm gone (not good enough)
Played out, our love (not good enough)
Memories are fine and it's time to move on

So, to we would bloom(?)
Escaping into couple therapy
So, stuck with fate
We know it's over, desire holiday
We could not hide

The truth looked up to show what we got wrong
Now we leave this town, get off alone again
At least(?), you and I

I've been giving my heart to someone
My heart to someone
Who could not bare

I've been giving my heart to someone
My heart to someone
My heart to someone

I felt alright (not good enough)
Wait here, I'm gone (not good enough)
Played out, our love (not good enough)
Memories are fine and it's time to move on

I felt alright (not good enough)
Wait here, I'm gone (not good enough)
Played out, our love (not good enough)
Memories are fine and it's time to move on

We need to go our seperate ways
Don't want to leave, but I can't stay
(I've been giving my heart-)

We need to go our seperate ways
(I've been giving my heart-)
Don't want to leave, but I can't stay
(I've been giving my heart-)

We need to go our seperate ways
(Yeah yeah yeahh)
Don't want to leave, but I can't stay
(Yeah yeah yeahh)

We need to go our seperate ways
(I've been giving my heart-)
Don't want to leave, but I can't stay
(I've been giving my heart to someone)

We need to go our seperate ways
(Yeah yeah yeahh)
Don't want to leave, but I can't stay

We need to go our seperate ways

Don't want to leave, but I can't stay
