Favourite Scar

Leona Lewis

Whatcha wanna talk about
Wanna stay up all night
Wanna scream and shout
Yeah sign me up then
Ain't nothin' to worry bout
I can take it all that's right
I'm your number one
Don't they get that?
Yeah we fight (year we fight)
Every day (every day)
And we love (we love)
Every night (every night)
It don't matter (don't matter)
It's all good
Every bird (every bird)
Every scar (every scar)
The messed up thing that we are
I'll take it all
Boy you better turn up your radio
I've never felt like this
You shot me through my heart
Pain never felt so good
Boy you're my favourite scar
I've never felt like this
You shot me through my heart
All eyes on me
In the middle of the streets screaming out your name and it sound like
La la la la la la you shot me through the heart
La la la la la you are my favourite scar
Whatcha wanna know about
Want me to tell you all of my sins
Yeah, you first
One shot you got me
And this scar everybody's sees on me

Baby it says that I'm with you
Yeah we fight (year we fight)
Every day (every day)
And we love (we love)

Every night (every night)
It don't matter (don't matter)
It's all good
Every bird (every bird)
Every scar (every scar)
The messed up thing that we are
I'll take it all
Boy you better turn up your radio
I've never felt like this
You shot me through my heart
Pain never felt so good
Boy you're my favourite scar
I've never felt like this
You shot me through my heart
All eyes on me
In the middle of the streets screaming out your name and it sound like
La la la la la la you shot me through the heart
La la la la la you are my favourite scar
Funny how time flies
I've never felt like this
You shot me through my heart
Pain never felt so good
Boy you're my favourite scar
I've never felt like this
You shot me through my heart
All eyes on me
In the middle of the streets screaming out your name and it sound like
La la la la la la you shot me through the heart
La la la la la you are my favourite scar
Funny how time flies
