## **A Reminder**

## **The Perishers**

We met at a place where people go to get laid But where no one would ever expect to get paid Once we were just like them I hope we'll never be againA reminder, let this be a reminder A reminder, let this be a reminderOf the nights when we were on the bend Looking for some kind of casual friend I thought I needed a girl of each kind One for the body and one for the mindA reminder, let this be a reminder A reminder, let this be a reminderOnce we were just like them I hope we'll never be againA reminder, let this be a reminder A reminder, let this be a reminder Let this be a reminderA reminder, let this be a reminder Let this be a reminder A reminder, let this be a reminder Let this be a reminder A reminder, let this be a reminder
