Let You Go (feat. Mali)

Chase & Status

You say it can't go on this way
Things have got to change
When you're gone and each day a choice gets made
You think it's yours to make, but you're wrongThere's no where to run, no place you can go
No where you can hide where you won't be found
There's no place on earth where you could lay low
Wherever you are, I will track you downThere's no way in hell I will let you leave
Let you just get up and walk out on me
There's no way on earth, hell would have to freeze
Over twice before I will let you goLet you go
I will let you goThere's no way on earth, hell would have to freeze
Over twice before I will let you goLet you go
I will let you goYou say it can't go on this way
Things have got to change
You're gone, each day a choice gets made
You think it's yours to make, but you're wrongThere's no where to run, no place you can go
No where you can hide where you won't be found
There's no place on earth where you could lay low
Wherever you are I will track you downThere's no way in hell I will let you leave
Let you just get up and walk out on me
There's no way on earth, hell would have to freeze
Over twice before I will let you goThere's no way I will let you goLet you go
I will let you goThere's no way on earth, hell would have to freeze
Over twice before I will let you goLet you go
There's no way I will let you go
