

Refill Me

Smile Empty Soul

I love my job, I love the house I live in
And I love my mom
I love the teachers at my school
They teach me how to love
But best of all I love the pills the doctor gives me
Don't talk, shut up, just refill me
'Cause I'm feeling kind of low today
And the pills will make it go away My friends are great, all they do is talk
But have nothing to say
I love L.A., the air is beautiful
And it's sunny every day
But best of all I love the pills the doctor gives me
Don't talk, shut up, just refill me
'Cause I'm feeling kind of low today
And the pills will make it go away Better off like this
Than to feel the real shit
This haze, this fog, this place
Twist the top, give me another kiss I love the pills the doctor gives me
Don't talk, shut up, just refill me
'Cause I'm feeling kind of low today
And the pills will make it go away Go away
Go away
