Blood Brothers

THPS2

If you knew me, would you save that seat for me?
If you knew me, would you finally let me free?
We're all blood, we're all blood, blood brothers
We're all blood, we're all blood, blood brothers
If you loved me, would you hold on to my hand?
If you loved me, would you finally understand?
That we're all blood, we're all blood, blood brothers
We're all blood, we're all blood, blood brothers
What you need, what you need, I need too
What you are, what you are, I am too
'Cause we're all the same under a different name

We're all blood, we're all blood, blood brothers
We're all blood, we're all blood, blood brothers
If you knew me, would you lift me from the ground?
If you loved me, would you even hear me make a sound?
We're all blood, we're all blood, blood brothers
We're all blood, we're all blood, blood brothers
What you need, what you need, I need too
What you are, what you are, I am too
'Cause we're all the same under a different name
We're all blood, we're all blood, blood brothers
We're all blood, we're all blood, blood brothers
We're all blood, we're all blood, blood brothers
