Can't Change Yesterday

Revive

Where to from here?
I'm not sure
In this crooked game of choose your own adventure
It's not so clear when things are troubling
And the wider path seems so invitingBut the truth is
Where else can we go?[Chorus]
I can't change yesterday
It's gone away
And tomorrow's still a mystery that I can't see
I can't change it
Nothing left for me to say
I can't change it
I can't change yesterdayToo quick to give up
Too quick to give in
When the hurting starts to really set inBut the truth is
Where else can we go?[Chorus]
I can't change yesterday
It's gone away
And tomorrow's still a mystery that I can't see
I can't change it
Nothing left for me to say
I can't change it
I can't change yesterdayBut the truth is
Where else can we go?
Yeah all we know
All we wanna know[Chorus]
I can't change yesterday
It's gone away
And tomorrow's still a mystery that I can't see
I can't change it
Nothing left for me to say
I can't change it
I can't change yesterday
