

My Bartender

Youth Brigade

he's always there for me at least until 2. he'll listen to my problems and pour a drink when i'm doesn't ever call me by my real name but some times he'll ask hey buddy who won the game!?! he's my bartender he's so good to me but i like him even better when the drinks are free. sometimes i tell him my cash flow is low if you could help me out you'd be a real good joe he knows the routine he's been through it before he'll shake his head and roll his eyes but he'll start to pour. he's my bartender he's so good to me but i like him even better when the drinks are free
