Future

Magoon

[Verse 1]Wish I could drive a whip, take you 'round the city
Cruise along the strip, and pick up somethin' pretty for you
Wish I could ball out in the club in the nightlife, you heard me,
But that might be just a little too early
Instead of shoppin malls, take you to the Tahj Mahal
Maybe the islands, only the finest for you
I know I'm young but I ain't even tryin' to fool ya
What I'm sayin is that girl I gotta-
[Chorus]Future, and when I'm older Imma know just what to do with ya
'Cause the futures lookin' bright so come into the light
And everything that's wrong I'll make it right, 'cause girl
I got a future, girl I got a future.
Girl you know I got a future, future, future, girl I gotta future.
[Verse 2]Wish I could meet your mom, too show her that i'm descent
Wish that I could tell you that I love you girl I mean it I do
Wish I could kick it with your friends on a regular basis
But we're from two different worlds, I gotta face it
I'm still a boy, and, you need a real man

I'm gonna get there, yeah I know I sure can
I know I'm young but I ain't even tryin' to fool you
What I'm saying is that girl I gotta-
[Chorus][Verse 3]One day, I'll be older and wiser yeah
One day, I'll be somebody's provider yeah
One day, I'm gonna be able to do,
All of those little things I been singing to you
One day, I'll be ballin', drivin 'stead of walkin'
Take you where you want and take you shopping in the mall and
Whoo!
I know I'm young but I ain't even tryin' to fool ya
What I'm sayin' is that girl I gotta-
[Chorus]I got a future, girl, [x3]
I got a future! Girl! (Let's get it)
(I got a future!
And when I'm older Imma know just what to do with ya!
