

Black and Bruised

Eighteen Visions

My days are numbered down on my life
I know, I can't quite make it
You've got your crown, so quit your fucking around
Well, I've broken you, you've broken me Now I'm alone
Well, I've broken you, you've broken me
Now I'm alone
Well, I've broken you, you've broken me You let the killer kill me tonight
Wounded, I'm down on my knees
You hang 'round me like a fucking disease
Well, I've broken you, you've broken me Now I'm alone
Well, I've broken you, you've broken me
Now I'm alone
Well, I've broken you, you've broken me And now this world has got me down, it's on my shoulders
Black and bruised, I go insane
Yeah, now this world has got me down, it's all but over
Black and bruised, I go insane Yeah, my mind is gone, it's so fucking lost
So please get out of my head
You've leeches on me like a fucking disease
Well, I've broken you, you've broken me Now I'm alone
Well, I've broken you, you've broken me
Now I'm alone
Well, I've broken you, you've broken me Yeah, now this world has got me down, it's on my shoulders
Black and bruised, I go insane
Yeah, now this world has got me down, it's all but over
Black and bruised, I go insane Well, I go insane, I go insane
I go insane, I go insane
Well, I go insane Well, I've broken you, well, I've broken you
Well, I've broken you, well, I've broken you
You've broken me
