

Just Say She's a Rhymer

Mary Gauthier

When they ask about us, as friends always do
Remember the good times, honey, we had a few
I'll never condemn you, I'll take all the blame

You got a good answer when they speak my nameJust say she's a rhymer and rhymers get restless

Just say that she's out there in search of a song

I know I hurt you but I never meant to

Just say she's a rhymer, just say she's goneYou know that I loved you, you know that I tried

You know that it hurt me each time that you cried

When your crying is over and your new life begins

I won't be around much, so when you see our friendsJust say she's a rhymer and rhymers get restless

Just say that she's out there in search of a song

I know I hurt you but I sure never meant to

Just say she's a rhymer, just say she's gone

Just say she's a rhymer, just say she's gone
