

Summer Love

Guy Sebastian

[Verse]

She's like an angel sleep

I pray she dreams of me

I can lay here all day

Up asking of her warm embrace[Verse]

'Cause she's the prettiest thing

I swear that I ever did see

Wish I have taken her hugs

Every ounce of her love

And bottled it up

'Cause all I ever left are[Chorus]

Those sweet memories, those sweet memories

Of the kiss we shared under the apple tree

Love come back to me right here next to me

Summer days, summer nights

When we made summer love

One day, summer love[Verse]

I thought when the season's change

These feelings would go away

But I still see her face

More and more each day[Verse]

'Cause she's the loveliest thing

I swear I ever did see

Wish I have taken her kisses

'Cause oh how I miss her

I need her now

But all I ever left are[Chorus]

Those sweet memories, those sweet memories

Of the kiss we shared under the apple tree

Love come back to me right here next to me

Summer days, summer nights

When we made summer love

One day, summer love[Bridge]

I pray that she finds her way

Back in my arms again

Someday, some way

It's good that 10 years

I remained only hers and I wait, I wait

But no matter what at least I still got[Chorus]

Those sweet memories, those sweet memories
Of the kiss we shared under the apple tree
Love come back to me right here next to me
Summer days, summer nights
When we made summer love
One day, summer love[Outro]
Those sweet memories, those sweet memories
Love come back to me right here next to me
Those sweet memories, those sweet memories
Summer love
