Slap In The Face

L.A. Guns

Kamikaze hit man
Love on the run
No mercy for the children
Of the night
You tangle on my brain
You drive me insane
I want what you got
No surpriseCold sweat my hands shakeNo point getting excited
She's on the case
Knock you off your rocker
Like a slap in the faceYou fuss you fight
You think you got the right
Make love the camera never lies
We got the power
We got the moves
Fourteen thousand killer watts
Just to make you grooveAnd it's just
Like smoking lightningNo point getting excited
She's on the case
Knock you off your rocker
Like a slap in the face
