

**\$20**

**Elucid**

A heart that won't burst  
And lips that don't thirst  
I thought of you first  
My love is for free, my love  
My love is for free  
My love is for free, my love  
My love is for free  
The breath of a bird  
A voice never heard  
But you knew every word  
My love is for free, my love

My love is for free  
My love is for free, my love  
My love is for free  
The dream is enough  
The price is too much  
But it's nothing to us  
My love is for free, my love  
My love is for free  
My love is for free, my love  
My love is for free
