Gotta Get Thru This

Begin Transmission

If only I could get through this
If only I could get through this
I gotta get through this
I gotta get through this
I gotta make it
Gotta make it
Make it through
Said I'm gonna get through this
I gonna get through this
I gotta take my
Gotta take my mind off you

Give me just a second & I'll be alright
Surely 1 more moment couldn't break my heart
Give me 'til tomorrow then ill be ok
Just another day & then ill hold you tight

When your love is fallin' like the rain
I close my eyes & it's gone again
When will I get the chance 2 say I love you
I pretend that you're already mine
That my heart ain't breakin' every time
I look into your eyes

If only I could get through this
If only I could get through this
If only I could get through this
God God
Gotta help me get through this

I gotta get through this
I gotta get through this
I gotta make it
Gotta make it
Gotta make it through
Said I'm gonna get through this
I'm gonna get through this
I gotta take my
Gotta take my mind off you

Give me just a second & ill be alright
Surely 1 more moment couldnt break my heart
Give me till tomorrow & ill be ok
Just another day and then ill hold you tight

When your luv is fallin like the rain
I close my eyes & it's gone again
When will I get the chance 2 say I luv you
I pretend that you're already mine
That my heart ain't breakin evry time
I look into your eyes

If only I could get through this
If only I could get through this
If only I could get through this
God God
Gotta help me get through this
If only I could get through this
God god
Gotta help me get through this
If only I could get through this
God God
Gotta help me get through this
If only I could get through this
