Only Yesterday

Taken By Trees

Oh honey, I really miss you
Oh honey, though it was only yesterday you kissed me
And that kiss, that kiss was so, so trueI guess I should know better
When it comes to falling
Yes, I should know better
When it comes to fallingOh honey, I really miss you
Oh honey, if only you could hold me now
'Cause you hold, you hold me, oh, so wellI guess I should know better
When it comes to falling
Yes, I should know better
When it comes to falling in love againOh honey, I really miss you
Oh honey, though it was only yesterday you kissed me
And that kiss, that kiss was so, so trueI guess I should know better
When it comes to falling
Yes, I should know better
When it comes to falling in love again
