

# Only Yesterday

## Taken By Trees

Oh honey, I really miss you  
Oh honey, though it was only yesterday you kissed me  
And that kiss, that kiss was so, so true I guess I should know better  
When it comes to falling  
Yes, I should know better  
When it comes to falling Oh honey, I really miss you  
Oh honey, if only you could hold me now  
'Cause you hold, you hold me, oh, so well I guess I should know better  
When it comes to falling  
Yes, I should know better  
When it comes to falling in love again Oh honey, I really miss you  
Oh honey, though it was only yesterday you kissed me  
And that kiss, that kiss was so, so true I guess I should know better  
When it comes to falling  
Yes, I should know better  
When it comes to falling in love again
