Morning Is My Destination

Tift Merritt

With the city closed for evening and the streets dressed up in rain
My sweet man, do you have some place to get to?Morning is my destination, see me through
Morning is my destination, see me throughNights not always free and easy, the way it is in my mind
If I should find I need some help from youMorning is my destination, see me through
Morning is my destination, see me throughDaybreaks broken light is as far away as I feel tonight
But I can go it if I can show it to youMorning is my destination, see me through
Morning is my destination, see me throughBaby, will you, will you see me through?
Tell me will you, will you see me through?Morning is my destination
Tell me will you see me through?
