

Paint Your Face

Slimy

Im fine I know youre fine too
In fact I know your whole life
Because you act like a no life your past friend is your Mac
My friends know your past and they know your ex girlfriends
But just stop and sign out its an emergency
You think youre a stranger but my friends know so I know
And what I know is that I know
So you think youre a stranger but my friend know so I know and what I know is that I know but youI search a
new place with some of my friends
And I see you there! Do you really want to stay here?
You look so afraid you look so mad now
You must paint your face cause you show your... on MySpaceIm tired of guys like you youre just a waste of time
Go and talk with another bastard youre not friend of mine
We know all your habits we know where youve been
Youre a virtual model
Its an emergencyYou think youre a stranger but my friends know so I know
And what I know is that I know
So you think youre a stranger but my friend know so I know and what I know is that I know but you dont know
