

Kiss the Chrome

Revenge

Thought of you as my mirror
Remembered the one thing you said
You said you would always discover
The truth that goes 'round in my head I know you're afraid of me
When I take everything I can see
If it wasn't for you and the things that you'll do
I'd be as lost as a man could ever be Kiss the chrome, why am I alone?
Kiss the chrome, wait and see
Kiss the chrome, always leads me home
Kiss the chrome, here with me Something I'll never recover
There's something that I've never had
The only way I've ever wanted to be, now
Was stark, stark raving mad Thought of you as my mirror
To show me the state of myself
It showed me the one thing that made me so bad
It's the one thing that I've never had Kiss the chrome, why am I alone?
You're gonna kiss the chrome, wait and see
Kiss the chrome always leads me home
You're gonna kiss the chrome, here with me Why can't I ever stop talking about you?
Things and the places you've been
The timing that falls when I'm left here without you
All of the feelings I've seen I'm just a man riding high
When I'm alone then I'll cry
I fade in the light and then pray for the night
Like a man who has nowhere to hide Kiss the chrome, why am I alone?
You're gonna kiss the chrome, wait and see
Kiss the chrome always leads me home
You're gonna kiss the chrome, here with me Kiss the chrome, why am I alone?
You're gonna kiss the chrome, here with me Why don't you shut up?
I'm in love with you
Always meant to say
Don't leave me this way
