

# Europop

## Eiffel 65

it's a musical kink coming from our roots  
and we play it loud cause it's groovy with a style it's a cultural thing from all country wide  
it's a musical flag and we call it europop always europop europop from the tv sets to the radio  
you can feel the force of the music in the night all through amsterdam straight to italy  
you can feel the beat of a european thing
