

# Take This Life

Shawn McDonald

As I'm standin' here, starin' into the mirror  
See the figure of a man tryin' to take a stand  
And live for somethin' more Integrity is what I need and honor to my soul  
I feed to give it up, pack it in gettin' rid of  
All my sin that's weighin' me down Won't you come and fill  
I still want you to come and make me more real Take this life, won't you change this life  
Come and make me whole?  
Won't you take this life, won't you change this life  
Won't you come and make me whole? In my pursuit of what is real  
My heart is longin' with a need to feel  
My soul come alive I trudge and I step through the height and the death  
Of a long narrow as I'm growin' old  
And soon I will be home Won't you come and fill  
I still want you to come and make me more real Take this life, won't you change this life  
Come and make me whole?  
Won't you take this life, won't you change this life  
Won't you come and make me whole?  
Won't you take this life, won't you change this life  
Won't you come and make me whole? As I'm standin' here, starin' into the mirror  
I see the figure of a man tryin' to take a stand  
And live for somethin' more Integrity is what I need and honor to my soul  
I feed to give it up, pack it in gettin' rid of  
All my sin weighin' me down Take this life, won't you change this life  
Won't you come and make me whole?  
Won't you take this life, won't you change this life  
Won't you come and make me whole? Won't you take this life, won't you change this life  
Won't you come and make me whole?  
Won't you take this life, won't you change this life  
Won't you come and make me whole?  
Come and make me whole?
