

Should Anything Go Wrong

Face to Face

In case of emergency
Break this glass
And pray the alarm makes a sound
The thought is killing me
I'm here on my own
you're nowhere left to be found[Chorus:]
I can't explain, if there is a way
I'm not going to lie to you now, should anything go wrong
There's little that I can do now, should anything go wrong
Please take these things, and don't come try and find meFor your security
Please try and stay calm
Remember what we talked about
I got a hole in me
But I'm not afraid
And neither should you be for now
