

Bundah

Christina Courtin

The stars burn bright for you
The stars burn bright for you
And like the days before
I like you even more I cannot breathe
When you are near me The days go by so fast
The days go by so fast
And like the days before
I like you even more I cannot breathe
When you are near me From my head down my toes
Up to my knees
From my head down my toes
Up to my knees The stars burn bright for you
The stars burn bright for you
And like, like the days before
I like you even more I cannot breathe
When you are near me From my head down my toes
Up to my knees
From my head down my toes
Up to my knees
