

Whispering on My Heart

[John Ricarazo](#)

Every morning I wake up of my bed and tell you "What I say?"
Just Like a normal person, that searching for a pray...
Nobody have a total mental problems!

In my country the people we live in poverty
Superior Minds and the poor nation we live in insanity
Nobody have a money for clear bussines.

I'm a Dreamer that like the peace
But the society is not complete
I remember that he top inside!

Like You (x4)

I never forget my past and my dream
But always I can't forget my old scream
Nobody have a mental problems that insanity!

My destiny arrived on my hand
I can't see the past and my life
Remember one thing POLITICANS BE BAD!

LIKE YOU...
