

Silver Machine

The Buddha Lounge Players

I, I just took a ride on a silver machine and still feeling mean
Oh, do you want to ride, see yourself going by
The other side of the sky? You gotta know where I've been And it flies sideways through time, it's an electric
line
To all the zodiac signs I got a silver machine
(Silver machine)
I got a silver machine
(Silver machine)
I got a silver machine
(Silver machine)
In my silver machine It flies out of a dream, it's antiseptically clean
You gotta know what I mean
Oh, do you want to ride, see yourself going by
The other side of the sky in a silver machine? I got a silver machine
(Silver machine)
I got a silver machine
(Silver machine)
I got a silver machine
(Silver machine)
In my silver machine I just took a ride on a silver machine and still feeling mean
Oh, do you want to ride, see yourself going by
The other side of the sky? You gotta know where I've been I got a silver machine
(Silver machine)
I got a silver machine
(Silver machine)
I got a silver machine
(Silver machine)
In my silver machine Silver machine
Silver machine
Silver machine
Silver machine
