

# Love Love

## Take That

You bring me right back down to the Earth from the promised land  
We're getting close to the center of the Earth with an honest plan  
You'll never be your mother or your father do you understand  
Until you understand

We don't have too much time here  
And time it travels far too fast  
We're not too far we're too near  
Before they take it from our hands

Why don't you teach your heart to fill and give your love love, give your love love give it all away  
Why don't you teach your heart to talk and give your love love, give your love love.

Gimme gimme what I need We'll take you right back down to the Earth from the mother land  
This is a first class journey to the gods to the son of man  
You're at the gates of human revolution don't you understand

Why don't you understand  
(Understand) we don't have too much time here  
And time it travels far too fast  
We're not too far we're too near  
Before they take it from our hands

Why don't you teach your heart to fill and give your love love, give your love love give it all away  
Why don't you teach your heart to talk and give your love love, give your love love give it all away  
Why don't you teach your heart to fill and give your love love, give your love love give it all away  
Why don't you teach your heart to talk and give your love love, give your love love.

Gimme gimme what I need We don't have too much time here  
And time it travels far too fast  
We're not too far we're too near  
Before they take it from our hands

Why don't you teach your heart to fill and give your love love, give your love love give it all away  
Why don't you teach your heart to talk and give your love love, give your love love give it all away  
Why don't you teach your heart to fill and give your love love, give your love love give it all away  
Why don't you teach your heart to talk and give your love love, give your love love.

Gimme gimme what I need
