

True Love

Zounds

I ear the buzzin' on the radio
I ear yet another song about
True love I wonder what it's all about
I'd like to taste a little bit of that
Don't know if I've ever encountered it
It seems to hangs so many people up
Sweet dreams are something that I never get
True love and what's it really all about True love - True love - True love - True love Every newspaper that I pick
up
Have some ways to help me in my search
New Shoes or maybe a new pair of jeans
Got to find a way to sell myself
One girl for everybody that's 21
One boy, that's the way it's always been
Watch out if that's not who it is for you
Some folks they find it hard to handle that Boys meets girls and girls meets boys
Live through pain, tears "enjoy"
But that's not how it looks to me
Looks just like a drag to me Sometimes it seems just like it seems like a joke to me
Read in in someone's glossy magazines
About the love that is a special thing
??? ???
Look twice, it's not such a funny thing
Not just a ??? ??? wedding rings
Can be a whole lot of ??? ??? things
Can be of pettiness and jealousy True love - what's it really all about
True love - what's it really all about
True love - what's it really all about
True love - what's it really all about
True love - True love - True love - True love
