Godsmack

Find a way, a way to be
You're looking down again, just let it be
And I'd only do for you what you'd do for me
And I only would do for you what you'd do for me Wastin' time like it was free
Will you ever find where you'll be? And I only would do for you what you'd do for me
And I only would do for you what you'd do for me
And I only would do for you what you'd do for me, yeah
And I only would do for you what you'd do for me Don't look back just to lean on me
It's taken the life out of me It's not like you'd know
You've never been close enough
Closer than you've been to me
It's not what you say, it's just in the way
You push me away And I'll only do for you what you'd do for me, yeah
And I only would do for you what you'd do for me, yeah
And I'll only do for you what you'd do for me
And I only would do for you what you'd do for me
