## Anthrax

Out in the streets  
We're fighting tonight  
We're dirty and mean  
So run for your lives Stand side by side  
With our fists in the air  
We live for the night  
On the razor's edge Unleashing the sound  
Lashing out, striking down  
All those who stand in the way Taking their lives  
Crushing them just like flies  
The cries of the wounded in pain Fighting the fight  
As we race through the night  
With power like never before Hammering, bashing them  
Pounding and smashing them  
Hard so we won't take a fall Like a raging inferno  
We'll torture and burn  
Up in a sea of flames We'll beat you and whip you  
Of honor, we'll strip you  
Down on your knees and beg We're fighting it out till the end  
We're living our lives for the sins Fighting the fight  
As we race through the night  
With power like never before Hammering, bashing them  
Pounding and smashing them  
Hard so we won't take a fall Like a raging inferno  
We'll torture and burn  
Up in a sea of flames We'll beat you and whip you  
Of honor, we'll strip you  
Down on your knees and beg Fighting the fight  
As we race through the night  
With power like never before Hammering, bashing them  
Pounding and smashing them  
Hard so we won't take a fall
