

Every Link In the Chain

Oh No Not Stereo

You think you're really cool
Can you come out and play?
We know you're beautiful
just put us on the airwaves
You think it's wrong
when you don't know what you wantEvery link in the chain
(Whoa oh oh)
is more shady than a shadow on a sunny day
Every link in the chain
(Whoa oh oh)
the industry where nothing lasts foreveryou're looking mighty high
too high to rock with me
too high and mighty
when you aren't even anything
but you think you are
and now I know what I wantEvery link in the chain
Whoa oh oh
is more shady than a shadow on a sunny day
Every link in the chain
Whoa oh oh
Is more shady than a shadow on a sunny day
