It's Just a Book?

Seminole String Band

When I look around and see the blessings on this Country it's plain to see how good the Lord has been! but I hear some people say put that old black book away, and than I just remind them once again! That It's just a Book that saved me from damnation! It's just a Book that cleanse me from my sins! it's just a Book That founded this great nation! and It's are only hope to get her back again! They don't want God's Ten Commandments, They don't like my King James Bible, They don't care to hear of what Jesus Christ has done! They speak with such conviction and condemn us with such boldness! But just show that book to them and man just watch them run! If it's just a Book why are you running? If it's just a Book why get so mad? If it's just a book why get so nerves? It's just a book that knows every God you've ever had! When you open up this Book, into your heart it takes a look! and it shows you exactly what you are!! From the pages there within it points out your every sin! It's just a Book that showed me full salvation! It's just a Book that read my title clear! It's just a Book that gave to me the victory!!! It's the King James Bible that I hold so dear!!! It's just a Book that saved me from damation! It's just a Book that cleanse me from my sins! It's just a book that founded this great nation! and It's our only hope to get her back again!!!!!
