

Into The Unknown

K.A.R.L. (Kill All Remaining Life)

Heading for another life in a new world far away

Why not me, oh, Lord?

Why did Vandroiy have to die, why?

Dreamers come and go, but a dream's forever

Freedom for all minds, let us go together

Never ending ways, got to roam forever

Always carry on

Walking down a misty road into the unknown

Heavy winds may blow into our faces

Oh, you can't kill the dream in killing the dreamer

Can't tear it down, someone carry on

Dreamers come and go, but a dream's forever

Freedom for all minds, let us go together

Never ending ways, got to roam forever

Always carry on

Dreamers come and go, but a dream's forever

Freedom for all minds, let us go together

Never ending ways, got to roam forever

Always carry on

Dreamers come and go, but a dream's forever

Freedom for all minds, let us go together

Never ending ways, got to roam forever

Always carry on

Dreamers come and go, but a dream's forever

Freedom for all minds, let us go together

Never ending ways, got to roam forever

Always carry on
