

United in Unhallowed Grace

Dimmu Borgir

Unfolding her carnal desires to me
With tempting eyes she does receive
A hunter of the night devil's whore
May her cursed beauty hunt me foreverWe embrace the madness gathered as one
Mourning dead passion... she comes to me
A fate awaits us in the night
In the ruins of creation we will uniteUnfolding her carnal desires to me
With tempting eyes she does receive
A hunter of the night devil's whore
May her cursed beauty hunt me foreverShe comes to me - a shining beacon
Confused by the sensual innovation
Passion... towards image of mortal evil
Passion... embraced by the image of united deathThe enigma lies broken
Searching for those precious moments
Reaching for a higher of existence
Like a newborn migrant in the voidI am smitten by forbidden fruit
Possessed by moments of dark splendour
To walk the nightmare terrains forever
The enigma lies brokenPossessed by moments of dark splendour
To walk the nightmare terrains forever
United with new unhallowed grace
This cursed beauty hunts me forever
