Why

M2m

Why don't you call me
Are you afraid?
Your friends all told me
You think I'm all that
Well it don't make sense
It's just craziness
Ooh, I need to know where we're at
Wondering why, you're acting this way, baby
Wondering why, you can't find any words to say
Maybe someone told you a lie
Or maybe you're just being shy
Keep wondering why
Why when you see me
You pretend I'm not there
But when I see your eyes
Somehow you seem to care
Unbelievable, inconceivable
Need to know
If we're going anywhere
Wondering why, you're acting this way baby
Wondering why, you can't find any words to say
Maybe someone told you a lie
Or maybe you're just being shy
Keep wondering why
Well it don't make sense
It's just craziness
Ooh, I need to know where were at
Wondering why, you're acting this way baby
Wondering why, you can't find any words to say
Maybe someone told you a lie
Or maybe you're just being shy
Keep wondering why, you're acting this way baby
Wondering why, you can't find any words to say
Maybe someone told you a lie
Or maybe you're just being shy
Keep wondering why
