Test Pilot Blues

Black Francis

Breathing mask, gloves and leather Stations of the Cross I've got no wings full of feathers Just my engines and a little sauceI never go up just for the money I never go half way

You know I always wanna do you, honey But I, I don't want to fade awayIt ain't no use, test pilot blues

A sunny day, boy, it sure do hurt

Big bang sky, a big bang dirtI've seen blue you've never seen

And I've seen you from on high

I've been places you never have been

I waived for you, you did not replyOh it ain't no use, these test pilot bluesHere it comes, I love this part We did itI never go up just for the money

I never go half way

You know I always wanna do you, honey But I, I don't want to fade awayIt ain't no use, these test pilot blues A cloudy day, boy, it sure do hurt Big bang sky, big bang dirtBig bang sky, big bang dirt Big bang sky, big bang dirt
