# Say Love

## Jason Reeves

So you've dreamed
That love was great as stars
So you wake
To find this all that you are

Well, I just want to be
What you think of when you smile
And I just want to be
What's reflected in your eyes

But I can't sit still
Let you pass me by
I can't dream
If you're not on my mind

If I can't see you
Then I'd feel blind
I need your love

If you would just say love
If you would just say love
Baby, say love
I would fall for you
I would fall, for you

But I can't sit still
Let you pass me by
I can't dream
If you're not on my mind

If I can't see you
Then I'd feel blind
I need your life

If you would just say love
If you would just say love
Baby, if you would just say love
I would fall, for you
I would fall, for you

Say love
Say
Say love
Say
