

# CALL ME BABY

EXO

Advisory - the following lyrics contain explicit language:

[English Translation:] This street is completely crazy  
Strangers in between people  
Every moment that we're together like boom boom boom boom boom  
What up Hey girl, that one moment felt like eternity (the fate-like moment)  
When you pierced into me in just one moment  
(like lightning, in this world)  
You called my name and came to me It's amazing, like a flash of light  
You fill me up the moment I see you, oh my  
Sit here comfortably and listen to my story now  
Oh I don't care, even if I have to go far  
I'll be the one man to be by your side You seeped into my dry lips and woke me up  
The time's wasting girl  
So don't wait, don't wait too long There are many who shine but look at what's real among them  
Call me baby, Call me baby, Call me baby, Call me baby  
(You know my name girl) My heart grows bigger for you and it closes  
its door for everyone else but you  
(You know I'm here girl)  
Call me baby, Call me baby, Call me baby, Call me baby  
Even if it's many times, Call me girl You make me exist as myself, you're the only one in my world  
You're the one, You're the one  
Girl you're the one I want There are many who shine but look at what's real among them  
Call me baby, Call me baby, Call me baby, Call me baby  
(You know my name girl) Even if it's many times, Call me girl Baby girl, even among all the greed and all the  
words  
You showed that you believe in me  
Even if everyone changes and leaves me, you are my lady  
All I need is for you to hold my hand There are many who shine but look at what's real among them  
Call me baby, Call me baby, Call me baby, Call me baby  
(You know my name girl) My heart grows bigger for you and it closes  
its door for everyone else but you  
(You know I'm here girl)  
Call me baby, Call me baby, Call me baby, Call me baby

Even if it's many times, Call me girlI was once trapped in a dark maze (in the darkness)  
But I hear your voice that woke me up  
You made me be born again, yeahE-X-O Listen!  
Say my name (Louder)  
If you become my light and pull me through this chaotic place (what up)  
I'll hold you and never change, I'll hold you and face those who left me  
Never don't mind about a thing  
You came into the big emptiness in my heartIn this shaking world (whoo babe)  
You were the only one who became my light  
Girl you're the one I want  
(You're the one I want)There are many who shine but look at what's real among them  
Call me baby, Call me baby, Call me baby, Call me baby  
(You know my name girl)(I'll be your baby yeah- Ho!)  
You make me exist as myself (You know I'm here girl)  
You're the only one in my world, you're the one, You're the one  
Girl you're the one I want  
(You're the one that I want)There are many who shine but look at what's real among them  
Call me baby, Call me baby, Call me baby, Call me baby  
(You know my name girl)Even if it's many times, Call me girl[Romanized:]Call me baby I georineun wanjeon
