

Amie

Summertime Dropouts

Out on the road in the van
Me and the band, doing the best we can
Dead broke, no joke, the needles on E and the engines puffing smoke
Limp into town on the fumes, chaos resumes, in a dingy hotel room
The show starts at eight but we might be late trying to find the venue
Thought today was just another show, another small town in the middle of nowhere
But I'll never forget that place, the very first time I saw your face I'm in love with a girl named Amie
She's my Disney princess, yeah she drives me crazy
We stay up all night then we sleep all day
She's the one that never got away Thinking about you non stop
Right around the clock, heads spinning like a top
All night, all day, you're everything I need in every single way
Felt like the blink of an eye, Fourth of July, underneath the bright blue sky
And I just couldn't wait to sit around the lake and learn all about you
On the beach alone and in the dark, look in your eyes and they're trying to tell me
You've been waiting all night for this
The moonlit sky and our first kiss I'm in love with a girl named Amie
She's my Disney princess, yeah she drives me crazy
We stay up all night then we sleep all day
She's the one that never got away
I'm in love with a girl named Amie
She's my Disney princess, yeah she drives me crazy
We stay up all night then we sleep all day
She's the one that never got away I'm in love with a girl named..
I'm in love with a boy named..
We stay up all night then we sleep all day
You're the one that never got away I'm in love with a girl named Amie
She's my Disney princess, yeah she drives me crazy
We stay up all night then we sleep all day
She's the one that never got away I'm in love with a girl named Amie
She's my Disney princess, yeah she drives me crazy
We stay up all night then we sleep all day
She's the one that never got away
