Cry over You

Tami Neilson

one
you won me over
you took my heart
one wasn't enoughtwo
too many heartaches
too many nights
i cried aloneand when we count up all the days, the nights, the love, the fights
seems it don't add up to equal much but all the tears icry over you
cry over youthree
three's one too many
two hearts are plenty
now i am left with nonefour
for you still have mine
give back my heart
give back my loveand when we count up all the days, the nights, the love, the fights
seems it don't add up to equal much but all the tears icry over you
cry over youand when we count up all the days, the nights, the love, the fights
seems it don't add up to equal much but all the tears icry over you
cry over you
