

Cry over You

Tami Neilson

one
you won me over
you took my heart
one wasn't enough two
too many heartaches
too many nights
i cried alone and when we count up all the days, the nights, the love, the fights
seems it don't add up to equal much but all the tears i cry over you
cry over you three
three's one too many
two hearts are plenty
now i am left with none four
for you still have mine
give back my heart
give back my love and when we count up all the days, the nights, the love, the fights
seems it don't add up to equal much but all the tears i cry over you
cry over you and when we count up all the days, the nights, the love, the fights
seems it don't add up to equal much but all the tears i cry over you
cry over you
