Tempest

Ace Troubleshooter

Don't touch this
Just look and feel your way through
Can't tough this tempest just yetThe hopes and fears
In the sirens sounding
Beating hearts, tears
As the rain starts poundingComfort in stereo sirens warning
Still fighting, white lightning
Blinding, stormingIt's not in me
But I'll recover it
It's not in meGo run and hide
As the storm comes in
I'll be alright and I won't let it inStanding ground
Standing with sirens waking
Firmly rooted, ever bending
Never breakingIt's not in me
But I'll recover it
It's not in meGo run and hide
As the storm comes in
I'll be alright and I won't let it inGo run and hide
As the storm comes in
I'll be alright and I won't let it inIt's not in me
But I'll recover it
It's not in meGo run and hide
As the storm comes in
I'll be alright and I won't let it inGo run and hide
As the storm comes in
I'll be alright and I won't let it in
I won't let it in
