

# Moodswings

## Charlotte Church

Now, first of all I wanna let you know that  
I've been known for some minor moodswings now and then  
It all started back when people were doing me wrong and  
Because of my position I would hold my tongue for them  
Bad relationships and people I thought were friends and  
People judging me before they get to know a thing  
When you decide to step to me, it shows me so clearly  
You just wanna see, see the other side of me  
And you don't know what I'm going through and  
You might think it's all about you  
But it's everything, I've been hoping that  
It's just bad timing to come at me like that  
I try to keep my cool, thus, that's what I try to do but  
It's so hard dealing with people just like you  
I try to walk away from situations that run  
Into complications that make me lose control  
If I give in to you then it's what you want me to do  
And if I lose my cool then I'm only pleasing you  
You know just how to push me, my temperature is rising  
Blood pressure is building, I'm about to lose control  
And you don't know what I'm going through and  
You might think it's all about you  
But it's everything I've been hoping that  
It's just bad timing to come at me like that  
I'm sorry, I, did I cross the line  
I tried to warn you away, way ahead of time  
I'm so frustrated that I feel like I could cry  
This could be the time but I'm not going out like that  
And you don't know what I'm going through and  
You might think it's all about you  
But it's everything I've been hoping that  
It's just bad timing to come at me like that  
And you don't know what I'm going through and  
You might think it's all about you  
But it's everything I've been hoping that  
It's just bad timing to come at me like that  
To come at me like that  
To come at me like that
