StarBright

Quietdrive

Come home to your place
I've got a little while
Till I've gotta leave
You know there's been times
Where I couldn't lie to your face
But right now I'm looking at you
Through the window of your soul
I know those little dark holes are beautiful
But I, I hear the words I should be saying
I just wish that you could know
I just think that you should knowThat your star is so bright
I can see your core
And you light up my life
So I can see more
I don't care if you're lost
Or you're scared
Or you never, ever
Never, ever wanna be friendsThere's a small step outside your place
I've got a little wine
So I can taste all the bittersweet times
That I have felt again
But it's not too late to repair myself
From the damage done
Since I've been gone
And I know
I see the snow
It starts to fall down
I just think that I should go'Cause your star is so bright
I can see your core
And you light up my life
So I can see more
I don't care if you're lost
Or you're scared
Or you never, ever
Never, ever wanna be friendsPlease, please belong here
Please, please belong here
Please, please belong here
Belong here
You love me, you love me'Cause your star is so bright

I can see your core
And you light up my life
So I can see more
I don't care if I get lost
And I'll see you again [x2]
