

# Love Lost (Interlude)

Daley

You Know,  
You are the only pill that I can take  
And you have so many side effects If there was something we could take  
To numb the pain of past mistakes  
There would be no heavy heart to [?] With this doubt hanging over, over my head  
Yeah, I feel it when I'm sober, sober again  
If there's no love lost  
No pain  
If there's no love lost  
There's no gain
