

Level Up (DCY & BBK Remix) [feat. JME]

Sway

We level up, up, up

We level up, up, up

SmashChorus:

Yeah, we level up!

I'm gonna climb up the levels, go harder

Lights flash every time we go fast

I'll never lose the game, I'm gonna last

So let's start, we level up! All over the radio and back up in raves again

We got the crowd on a wave like it's a stadium

Call me the weather man it's about to be a great weekend

I'm on the cloud, let's make it rain again

Yeah, we level up! Nice but naughty, shirts and dresses looking saucy

Living in our minuses, cause life begins at 40, level up.

Call me Bond, James Bond

How I maintain, I tell them winner stays on

My brain racing like I'm trying to win the gold for Britain, yes.

On a one track mind, let's go the distance

We're only stopping when we pose for pictures

And now we move so wavy, we get motion sickness. Chorus Feeling like I just won the lotto

Pop a bottle and make them say Ahhh like I'm your dentist

Keys to the suite, you call me Alan Sugar

Yeah we're firing tonight, and I might need an apprentice

Reunion, old school and uni friends

It's your excuse to act like hoologans

Bend and break the rules again

Parties just getting started at 2am

Waking up at noon next to.. Who are you again? Looking in the mirror and I feel like I'm famous

I got that glimmer in my eye like I ain't afraid of danger

Today could be the day that everything changes

I'm trying to move up to the hills where idols become neighbours

One moment, your whole world rearranges

You feel like you graduated Oxford or Cambridge

Forever roll the dice and have it looking like Vegas

You win some you lose some, but only winners take risks. I start making calls I've been waiting on for ages

Phone starts popping and I'm gossiping with strangers

And I know now I'm out getting wasted

All of these flashing lights popping up in places

Always forgetting names, especially with ladies

Aha... What's your name again? Name again?

My house, la la la lights out, Wake up in tee saying touch me i`m famous
Hey stranger, where you`ve been? Long time no see
Time to level up
I`m in the game, play to win
Another round on me. Chorus
